Therefore, social practice of college students has important party function. How to give full elaborate the effect of social practice to strengthen the party construction is an important research content of the grassroots party construction work. This article aims to explore the new practice of strengthening the party construction work in colleges and universities under the platform of social practice.

Keywords

Social practice of college students; College party member; Basic party construction in colleges and universities.

1. Introduction

Social practice is an important part of the party construction work, is an effective way to improve the advanced nature of college students party members, for the effectiveness of party construction is of great significance. Only from the overall system to explore and study the social practice to strengthen students' party construction an effective way to make social practice to promote party construction work more strategic and enforceable in order to better play the effectiveness of party construction to adapt to the new situation and new tasks Claim.

2. The current situation the problems and the reasons of the college students' party construction

From the current situation, the new period and situation of party construction in colleges and universities is not very optimistic. Around the new situation and new tasks, the party construction of college students gradually presents its shortcomings. It can be summarized as five attentions and five neglects, that is, the basic party organizations paying attention to construct party and neglecting party construction, the motivation to join the party paying attention to utilitarian and neglecting function, the communist party of China education paying attention to training and neglecting improvement, the communist party of China's development paying attention to index and neglecting quality, the evaluation of the standard paying attention to performance and neglecting cultivation. In the process of party construction, the five attentions and five neglects reflected in the process of party construction has concisely summarized the current situation of the party construction work of the students in our country, and it points out the problems and drawbacks in the current work of party construction. The rethinking of the party construction work will directly affect the development process and development direction of the party construction work of college students, which requires us to pay attention and seriously discuss and analyze it. However, the main causes of the current party

construction work have six. The first, the party training time is tight; the second, the increasing number of the communist party of China members; the third, the university counselor task is heavy; the fourth, party workers and party members lack of adequate communication; the fifth, activities lack in the form of innovation; the sixth, publicity education is not in place. These are the lead to the five attentions and five neglects' situation of the fuse, and cause a serious block in the growth of party construction work. However, the fundamental reason, is also the problems in the current party construction work encountered, so it need to seek new ways to improve the quality of work in the current work background.

3. The important role of social practice and its position in the work of party

As an important part of the practice education of college students, social practice is a concrete embodiment of the combination of education and practice. It is not only to promote young students knowledge and ability in the process of combining theory and practice, but also enrich and deepen the ideological and political practice contents. The practice of education content, which runs through the whole process of personnel training in colleges and universities, has an important influence on the development of the cause of reliable successor.

3.1 Social practice plays a guiding role in cultivating strong political beliefs among student party members

At the request of the new period, it is imperative to further strengthen the ideological and political education of the student party members, and improve the political quality of the student party members and cultivate the firm political beliefs of the student party members. Student party members should actively participate in the ranks of socialist modernization, carrying out practical action to carry forward the spirit of patriotism, which requires social practice to cultivate students an important way of thinking and believing party members, and is conducive to training students correct political belief.

3.2 Social practice plays a promoting role in enriching the strong sense of the socialist party members of the cause of socialism.

Long history of experience and reality have proved that any work or occupation, always love dedication and loyal to their duties as a basic professional spirit. Student party members as the successor of the cause of socialism, should always remember the historical mission of party members to improve the political enthusiasm and enthusiasm and cultivate a strong sense of social career. Participation in social practice can let the student members step out of the ivory tower and face the society and go into the ranks of socialist construction, and experience the heat of the cause of socialist construction and enhance the wholeheartedly serve for the people.

3.3 Social practice has a nurturing effect to cultivate students good moral self-discipline.

Undergraduates are in the important period of the world outlook, the life outlook, the formation of development values. In this period the students have some developments in thought, morality and self-discipline. However, the experience is not rich enough and the thought is not mature enough. It requires students to participate in social practice and accept the influence of social public opinion, and gradually form a systematic, mature moral self-discipline awareness in practice.

3.4 Social practice has a history effect on cultivating student party members.

In addition to the party members having faith in serving the people, it needs to have excellent work ability to better serve the people and serve the community. The so-called practice of real knowledge, student party members participate in social practice, not only in serving the people, but also enhancing the ability to work, accumulating work experience and improving the ability to organize the process, which for excellent work abilities lay a solid foundation.

3.5 Social practice helps to promote student members to learn professional knowledge and understand the party spirit.

Practice is the only standard to test the truth, and student party members need to participate in social practice in order to better digest their own professional knowledge. At the same time, it promotes student party members to better understand the party spirit through the social practice of this hub, so that the two parts form a virtuous circle and make mutual improvements.

4. Explore effective ways to combine party construction and social practice

4.1 Social practice and party construction work together to design, integrate, synchronize and promote each other.

The close connection between party construction and social practice is not only the premise of carrying out characteristic social practice, but also the good method to test party construction in practice. The party construction leads the social practice, social practice is in the service of party construction, the combination of both, synchronously development, makes it more reasonable to carry out the party construction, provide new life for the development of the party construction, inject new vitality, is also comply with the new historical trend.

4.2 Build social practice and party construction network platform.

Network, as a means of communication in information age, is the important hub of communication between party construction and social practice, which can enforce inspecting of the party member to play their advanced nature in the social practice of on-the-spot investigation and supervision in the activities, and it has good and realistic effect, as well as a combination the function of propaganda and learning.

4.3 Form party construction social practice research groups, timely summarize and adjust the strategy.

Party constructing is a process that requires constant thinking and continuous improvement, discovering problems, solving problems, giving feedback, and especially, updating mechanism. By forming a party social practice team, summarizing in a timely manner, it is advantageous to the party members' rethinking of the social practice process, questioning to the inconsistency, solving problems, and timely adjusting strategy, which enables party construction twice the result with half the effort.

4.4 Combine social practice with local party building in order to promote party construction by party construction.

Students' social practice, as the bond and bridge between school party construction and social party construction, which can strengthen the contact of school and society, and in a timely manner, understand the main trend of the construction of the party and the development, both in and outside school, moreover social practice plays an important irreplaceable role to promote "the exchange of party construction". It will push the student party members to get out of the campus, fit in the society, enhance their adaptability to the society, and better serve the knowledge in the society and promote the development of student party construction.

4.5 Encourage students to share social practices and learn from each other.

Sharing their social practice experience in a timely manner is not only an effective method for students to summarize and think, but also an important measure to inspect the party member's performance in practice, advantageous to the students to exchange experience, helping the appraisal of student party member thought advanced nature.
